

Australasian Recycling Label

The Australasian Recycling Label makes it easy to put your packaging in the right bin.

How does it work?

Recyclable (Coloured Recycling Symbol)

Each component with this label can be placed in your kerbside recycling separately.

Conditionally Recyclable (Clear Recycling Symbol)

Can be recycled ONLY if the instructions below the symbol are followed. If not, it has to go in the rubbish.

Not Recyclable (Rubbish Bin)

This is not recyclable, it has to go in the rubbish bin. If you place it with your recycling, you will contaminate your bin.

Now that you know how the Australasian Recycling Label works, can you connect the labels below to the right bin?

Recycling Bin at home

Soft Plastics Bin at participating stores

Rubbish Bin at home

These are words related to the Australasian Recycling Label, can you find them?
