

WHAT IS A PROTOTYPE?

PROTOTYPE

A **prototype** is an example of your idea. They can be **drawings** or **small models**.

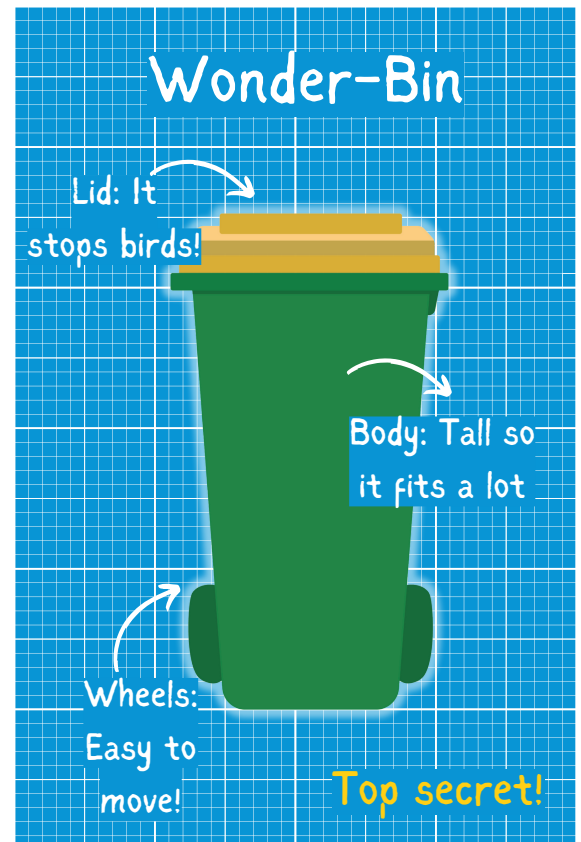

They show others:

- What it will look like
- How it will work
- If there are any problems to fix

TOP TIPS

- Draw your prototype in different ways
- Explore other ways it may work
- Label the different parts of your prototype so people know what it is and what it does

PARKER'S PROTOTYPE

Top secret!

Incredi-Bin

PROTOTYPE

A **prototype** is an example of your idea. They can be **drawings** or **small models**.

They show others:

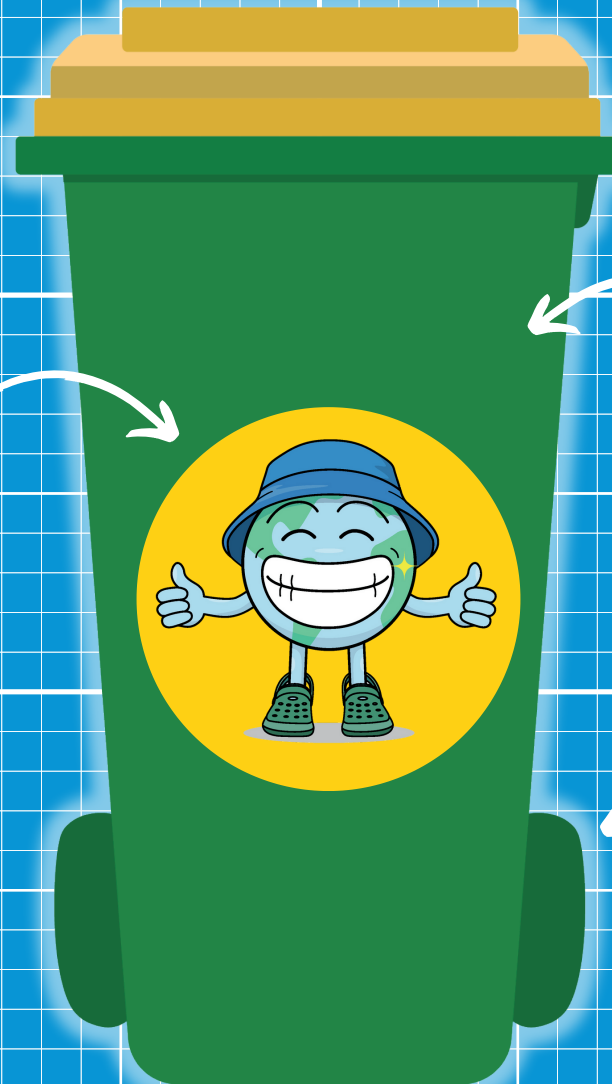

- What it will look like
- How it will work
- If there are any problems to fix

Lid: It stops birds!

Me: That's how you know it's cool

Body: Tall so it fits a lot

Wheels: Easy to move!

TOP TIPS

- Draw your prototype in different ways
- Explore other ways it may work
- Label the different parts of your prototype so people know what it is and what it does
